A French legend, reborn

A Concert Grand harp in the purest French tradition, the Élysée is a vibrant homage to its ancestors, the great Erard harps, and to the golden age of French luthery.

Inspired by Erard's Empire models, it also evokes them aesthetically, with ornaments in gilded bronze. Made from finest rosewood throughout, with all the expertise of the Camac craftsmen, the Élysée's magnificent musicality brings the legendary instruments of old to life again.
